

Double sided multipurpose ladder

HYBRID

Double sided heavy-duty stepladder, with steps on one side and rungs on the other, which can be used as A ladder and leant to wall both single and double. It is produced in ribbed extruded aluminum with steps welded to the stiles, suitable for artisans and maintenance workers who need different positions and heights in order to carry out different types of intervention. Also perfect for harvesting fruit in agriculture.

HYBRID

n.	m	m	max m	cm	Kg
5	1,44	1,34	2,49	69	6,5
6	1,72	1,62	2,77	69	8,5
8	2,28	2,25	3,51	81	10,5

- Front/back stiles mm 80x25/mm 57x26
