**EVEN MORE
SAFETY ON
YOUR LADDER**

SAFETY SHOE KIT: Rubber part leant to each surface secures the ladder and strongly avoid the skidding of it that is considered to be the most common cause of accidents in the usage of such tools. This special device avoid the ladder side-and frontal skidding even in the case there is no people taking it on the bottom.

SAFETY SHOE KIT: is universal and can be fixed on all ladder frames that you find on the market. Can be installed in seconds and can remain fixed to the ladder when the job is terminated.

Assembly:

BALCONIES

GUTTERS

WALLS

ZINC STING COURSE

(a complete set is made of nos. 2 shoes and can be used on no. 1 ladder)
